DMM Fusibles protección de multímetros

Los fusibles DMM están especialmente diseñados para la protección de multímetros. Diseñados para funcionar de forma permanente al 100% de la corriente asignada.

La tensión de trabajo máxima es de 1000V AC/DC.

La gama comprende los siguientes fusibles:

→ Talla 10x35 1000V AC/DC 440mA

Directiva RoHS.

Datos técnicos

Tensión asignada	1000V AC/DC
Corriente asignada	440mA
Poder de corte asignado	30kA
Categoría de utilización	0,093W
Temperatura de almacenaje	-40°C ... 90°C
Temperatura de funcionamiento *	-40°C ... 80°C

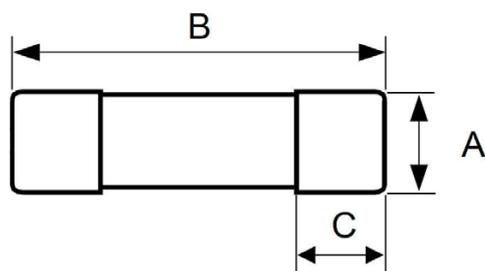

* Para temperaturas ambiente superiores a 25°C es necesario aplicar un coeficiente de corrección sobre la corriente máxima.

Normas

RoHS Compliant

According to the waste of electrical and electronic equipment directive, electrical material should not be part of the usual waste. This symbol alerts users that these products should be recycled according to local environmental waste disposal regulations.

The "electro technical expert" logo marked on the products included in this data sheet indicates that the installation of these products must be carried out by expert personnel with specialized knowledge.

To prevent electrical hazards, carry out the installation without voltage.

Safety notice
Please capture the following QR code and read our safety notice carefully before installing our products.

The data reflected in this technical record are subject to the correct installation of the product in accordance with manufacturer's instructions, relevant installation standards and professional practices, maintained and used in applications for which they were made.

The products described in this document have been designed, developed and tested in accordance with specific standard. They are considered components that are integrated as part of installation, machine or equipment. The correct general operation of the referred product is responsibility of the manufacturer of the installation, machine or equipment.

DF ELECTRIC cannot guarantee the characteristics of an installation, machine or equipment that has been designed by a third party. Once a product has been selected, the user must verify that it is appropriate for its application, through the verifications and/or tests that it deems appropriate.

DF ELECTRIC retains the right to change the dimensions, specifications, materials or design of its products at any time with or without notice.
